Textile World

The World's Textile Authority

INDEX

To VOLUME 83

January to December, 1933

BRAGDON, LORD & NAGLE COMPANY
Division of McGraw-Hill Publishing Co., Inc.
330 West 42nd St., New York

General Alphabetical Index

PAGES BY ISSUES

January 35-106
February 203-270
February 28 (annual issue) 377-444
March 561-624
April 719-784
May 899-966
June 1071-1136
July 1243-1304
August 1409-1474
September 1585-1654
October 1791-1856
November 1969-2034
December 2157-2220

A

Accidents and accident prevention—Textile accidents drop 1280

Accounting

Cost-finding system at Minneapolis Knitting Works. V. J. Gregory 60
Jantzen Mills—group of forms used by management. L. H. Delano 1818
Relations of sales, inventory and manufacturing. F. D. Manning 1978

Air Conditioning

Awnings reduce "cooling load" on air conditioning equipment 1441
Decentralized humidity. F. A. Westbrook 1442
Napping-room air—Pepperell's recirculation system. F. A. Westbrook 1821
American Association of Textile Chemists and Colorists — Century of Progress meeting 1833
American Cotton Manufacturers Assn.—Federal Legislation discussed at Pinehurst convention 910
American Knitwear Manufacturers Assn.—Organized 217
American Society for Testing Materials—Commitee D-13 discuss twist and other research matters 1990
New standards offered in report 1259
Textile Committee meeting 928
American Society of Mechanical Engineers—New products and techniques discussed 2186
Association of Cotton Textile Merchants—Plan to coordinate industry for Russian trade 2161
Association of Wool Manufacturers—Arthur Besse—new head 1795
Associations—leadership is up to the industry 392

B

Belting—Reconditioning prevents ruin of leather belts. J. N. Smith 741
Besse, Arthur—new head of wool manufacturers' group 1795

Bleaching

Peroxide bleach (A.A.T.C.C. meeting) .1834
Peroxide bleach on cotton and cotton rayon hosiery. W. H. Hand 740
Print works methods for bleaching cotton rayon fabrics. Ray Cottrell 1271
Sewing threads, bleaching and dyeing (Q) 77
Thread yarn bleaching (Q) 1446
Union Bleachery modernizes for quicker delivery 436
Book reviews..91, 239, 1281, 1450, 1825, 2020, 2202
Social trends 72
Business—Promise—and a threat 563
"Well, what of it?" (ed) 721

C

Carpets and Rugs

Rug pattern inspiration in weave structure 1432
Special testing machines at Bigelow-Sanford 1266
Velvet carpeting (Q) 1447
Wilton analysis (Q) 2014
Cellophane knitting. J. H. Lepperhoff.. 1084
Census—Textile censuses since 1914 summarized 407
Textile, 1931 compared with 1929 210
Century of Progress Exposition—40 years of progress in textiles 1113

Codes

Authorities concentrate on application..2164
Code administration replaces code making.1973
Cotton code conditions added by Roosevelt 1245
Cotton code examined by N.A.C.M.....1796
Cotton code hearings 1246
Cotton code subcommittees 1412
Cotton code text 1244
Cotton textile code amendments 1418
Cotton textile costs and prices under NRA. R. E. Loper 2002
Cotton Textile Institute dissects NRA at meeting 2003
Effect of codes cannot yet be gauged accurately 1618
Hosiery code approved 1616
Industrial Relations Board 1427
Labor benefited by "NIRA" codes....1426
Machine hour limitation defended by NACM 1798
Machine-hour limitation essential for cotton-textile code 1798
Now industry's job (ed) 1971
Operation of textile codes 1412
Rayon weaving code 1415
Rayon weaving code approved 1617
Rayon weaving code hearing 1420
Rayon yarn code 1415
Rayon yarn code hearing 1421
Relief and recovery discussed by North Carolina Manufacturers Assn..... 2184
Silk code provisions 1973
Silk and rayon, overlapping code jurisdiction in. John Black 1975
60-hour mill—best plan for shifts under code 2188
Statistics and test of codes 1588
Status of major textile codes 1415
Status of textile codes 1613
Temporary hosiery code 1417
Temporary silk industry code 1416
Temporary textile finishing code..... 1418
Temporary silk throwing code 1417
Temporary underwear code 1417
Textile code making extended to minutiae.1801
Textile World analyst—what has happened in textiles under codes and taxes 2189
Throwing code provisions 1973
What the cotton code means (ed)..... 1243
Wool code 2166
Wool code hearings 1419
Wool textile industry code 1414
Color—Heat reflecting properties of dyed wool shown by infra-red photographs.2180

Costs

Accurate sales costs as determining factor in merchandising policy. J. A. Austin 393
Cost-finding system at Minneapolis Knitting Works. V. J. Gregory..... 60
Finishing plant saves money at finishing plant. W. R. Clendinning 2174
Lowering power costs by eliminating waste. Roy Reddie 752
Mill village cost in the South..... 1804
Purchased power costs can be lowered. M. C. Bishop 1100
Scrapping obsolete machinery will save $159,000,000 a year. W. W. Chase.. 428
Thread costs of knitted underwear. S. M. Peterson 1254

Cotton

Allotment plan for farm relief arouses opposition from manufacturers 40, (ed) 41
Allotment plan riddled with bullets of logic 208
Control program for two years mapped.1803
Farm relief plan. Paul Wooton 78
Texas cotton. C. D. Brandt 1258
Cotton Manufacturers Assn. of Georgia—Consider national legislation and cotton problems 1099

Cotton Manufacturing

AAA activities studied at NACM meeting 1799
Anti-crease fabrics produced by Pacific and Sayles 742
Avondale Mills reduce costs by modernization 432
Awning sales ammunition 1441
Binding cloth finishing (Q) 242
Blanket calculations, cotton wool (Q).. 597
Bleaching thread yarn (Q) 1446
Brassiere cloth, streaks in (Q)..... 1112
Brocade of modern style. C. F. Harleston.2183
Budgeting production at Pequot Mills. E. N. Hood 386
Carding and spinning developments discussed at meeting of Textile Operating Executives of Georgia 748
Cellophane faced fabrics 927
Cloth scray, portable. H. H. Iler *1265
Code may solve mill village problem....1428
Combed group talks preparatory processes 1983
Concentration on specialty keeps 8-loom mill busy 2177
Condensing harnesses (Q) 756
Conversion factors under cotton processing tax (table) 2168
Costs and prices of cotton textiles under NRA. R. E. Loper 2002
Cotton code subcommittees 1412
Cotton-rayon printing. Ray Cottrell....1824
Cotton textile code amendments 1418
Cotton Textile National Industrial Relations Board 1427
Cotton week 907
Counter lift for cotton slashers 427
Curling in cotton (Q) 76
Denim, defect in (Q) 242
Dischargeable dyestuffs applied to cotton rayons. Ray Cottrell 1439
Draperies, new, offer outlets for cotton dress goods 917
Drive, group and unit 934
Face-to-face starching. M. W. Alling.. 232
Federal legislation discussed at Amer. Cotton Mfgrs. Assn. convention 910
Filling-wind tension for cotton spoolers. Arthur Ouimet 426
Finishing cotton lawn (Q) 597
Georgia Mill men consider national legislation and cotton problems 1099
Government aid simplifies payment of cotton tax. Paul Wooton 1430
Grinding roller covering (Q) 2206
Handkerchief constructions (Q) 2207
Harvard report on merchandising cotton textiles 908
Heart cam rolls. L. L. Kingsford..... 574
Impregnation of textiles with latex. W. J. R. Hauser 587
Improving operation of cotton looms. Milton Meek 914
Labels, cost of weaving (Q) 1276
Latch needles, care of (Q) 111
Layout, efficient, insures smooth flow of goods through Spartan Mills' cloth room 572
Leno weave for laundry bag (Q) 1842
Licker-in speed (Q) 243
Licker-in speed—some factors and a formula. C. A. Weston 1820
Lining fabrics, wearing qualities of. C. L. Simon 576
Loom faults met in cotton weaving tests. Richard White 1992
Maintenance of carding and spinning considered by Carolinas Division, S.T.A..1996
Manufacturing of cotton gains in efficiency in 1932. R. C. Maultsby.... 408
Merinos, new method for, on cotton system. H. W. Swan 1624
Mineral oil products 1272
Muslin in the movies. A. B. Laing..1252
Napped fabric, defective (Q) 1843
Napping-room air—Pepperell's recirculation system. F. A. Westbrook..... 1821
NRA dissected by Cotton Textile Institute at meeting 2003
Nep and Himalaya on cotton system. Arthur Oimet 1429
New products in the cotton industry... 385
New summer suitings 568
New testing standards offered by A.S.T.M. in report 1259
North Carolina Cotton Manufacturers Assn. discusses relief and recovery....2184
Osnaburgs, construction of (Q)..... 1111
Paris openings. M. H. Stark 763
Peroxide bleach on cotton and cotton rayon hosiery. W. H. Hand 740
Picker-lap variation reduced. F. A. Westbrook 1997
Print works methods for bleaching cotton rayon fabrics. Ray Cottrell..... 1271
Processing tax. Paul Wooton 1619
Purification improves fibers for electric insulation. A. C. Clifford 2001
Rayon cotton nub yarn 1635
Rayon cotton twists (Q) 596
Rayon handling in cotton mills. Philip Allen 1597
Rayon on cotton spoolers and warpers. A. I. Metart 1257
Reduction in conversion costs by installing new machinery. W. W. Chase ... 429
Russian trade—cotton goods men organize for share 2161
Scientific spinning instruments. B. J. Zalkind 1091
Selecting cotton discussed at Southern Textile Assn. 62
Sewing threads, bleaching and dyeing (Q) 77
Sewing thread, streaks on (Q) 1276
Sewing threads, bleaching and dyeing (Q) 77
Sheeting widths (Q) 1842
60-hour mill—best plan for division of work 2188
Slashing and weaving discussed by Georgia Operating Executives 1812
Southern Textile Assn. meeting 62
Spinning combed yarn analyzed by Gaston County S.T.A. 1098
Staple rayon spun on cotton machinery. A. E. Oxley 44
Strength and yarn count—new correction formula 2181
Suitings, women's cotton. T. R. Hart. 747
Tape, ladder. E. J. Gibbons..... 58
Ten years of production and consumption of cotton textiles 382
Testing looms on heavy cotton work. Richard White 1622
Textile Committee of American Society for Testing Materials 928
Throwsters' waste bags (Q)..... 1277
Twist definition revised at A.S.T.M. meeting 1990
Velveteen and corduroy. G. R. Robertshaw 1260
Voiles, cotton (Q) 757
Wage readjustments 1273
Warp mercerizing — omits preliminary boil-out 2176

(Q) Questions and answers

670.5
V.83

Warp sizing p... R. Robertshaw 1988
Weaving leno ... Milton Duxbury 746
Weaving necktie lining (Q) 1635
What the cotton code means (ed) 1243
Wool blend on cotton system (Q) 939
Yarns, new products in 1620
Cotton Textile Institute—Dissects NRA at annual meeting 2003
1932 Medal of Award presented by American Trade Assn. of Executives 906
Cotton Textile National Industrial Relations Board 1427
Credit, too much, not good for the industry. E. L. Milliken 49

D

Degumming agents—soaps and boil-off oils 67

Design

Against design piracy (ed) 2160
Backed cloths, imitation; wadding threads. R. A. C. Scott 918
Bedford cord and its counterparts, cotede-cheval and plisse. B. D. Blackman 230
Better design protection draws near 55
Brocade of modern style. C. F. Harleston 2183
Cellophane faced fabrics 927
Coatings and suitings—design suggestions. G. R. Stevens 1989
Cut-presser figures—procedure for spring-needle design. J. F. Cahill 214
Domino crepe. B. D. Blackman 920
Double cloths using double warp and double filling. R. A. C. Scott 1808
Draperies, new, offer outlets for cotton dress goods 917
Failles. B. D. Blackman 1436
Fashion data clearing house established by Silk Assn. 56
Forecast of coming styles for apparel fabrics. Helene Volka 399
Fringe for robes (Q) 1276
"Glamor" in textiles 2167
Home furnishings trend in Radio City textiles 247
Knitting feeds — how they affect cut presser figures. J. F. Cahill 735
Lastex and metal in new French novelties. Marie Stark 1976
Linen-like effects in Paris openings. M. H. Stark 763
Magnified flowers offer new design inspiration. William Shack 578
Matelasse. B. D. Blackman 603
Muslin in the movies. A. B. Laing 1252
Narrow fabrics—double cloths with two shuttles. E. J. Gibbons 584
Nep and Himalaya on cotton system. Arthur Ouimet 1429
New summer suitings 568
Novelty yarn fabrics in woolen and worsted. Ralph Downs 1088
Piracy and new style concept. John Black 396
Rayon fabrics of today. C. C. Mattmann, Jr. 1605
Rayon "triple sheers." James Chittick. 1823
Reproducing colonial coverlets on modern looms. W. E. Shinn 212
Rug pattern inspiration in weave structure 1432
Shires in rayon tape (Q) 77
Silk printing styles and application. W. M. Scott 79
Specifying presser cuts—tips for knitting designer. J. F. Cahill 2178
Style trends as regarded by silk or rayon designer. C. C. Mattmann, Jr. ..1814
Suitings, women's cotton. T. R. Hart .. 747
Tape, ladder. E. J. Gibbons 58
Velveteen and corduroy. G. R. Robertshaw 1260
Warp-backed cloths compared with filling backed. R. A. C. Scott 220
Woolen design and finish 425
Woolen weaves. G. R. Stevens 753

Dyeing

Ageing vat colors—Textile Institute conference 1626
Dischargeable dyestuffs applied to cotton rayons. Ray Cottrell 1439
Fatty alcohol sulphates 933
Galalith buttons, dyeing (Q) 1446
Heat-reflecting properties of dyed wool shown by infra-red photographs 2180
Hosiery dyeing, defects avoided in. G. H. Clifton 1102
Inspecting fabrics for shading and other defects 1993
Knitted acetate fabrics, processing. E. F. Cleveland 734
Level dyeing on wool goods (Q) 756
Plugging leaks in silk dyeing and finishing plants. W. R. Clendinning 582
Reduction in conversion costs by installing new machinery. W. W. Chase .. 430
Sewing threads, bleaching and dying (Q) 77
Silk dyeing and finishing plants, economies in. W. K. Clendinning 930
Silvertone effect on skein dyed yarn (Q) 76
Streaks in knitted zephyr (Q) 1277
Streaky dyeings on French spun yarn (Q) 76
Uneven dyeing on cotton yarn (Q) 2207
Uneven shade on mohair-rayon fabrics (Q) 1842
Well scoured fabrics aid knit goods dyer. E. F. Cleveland 57

E

Elastic fabric. See Knit goods.

Engineering

Brake adjustment on looms. H. E. Wenrich 1082
Decaying roofs modernized to eliminate dry rot. R. H. Guest 226
Decentralized humidity. F. A. Westbrook 1442
Development of early American power loom. J. T. Lincoln 46
Drive, group and unit 934
Economies in silk dyeing and finishing plants. W. K. Clendinning 930
Equipment for cotton manufacturing improves in 1932. R. C. Maultsby ... 408
Finishing plant saves by recovery of waste heat. W. R. Clendinning 2174
Fire and NRA—shorter hours require better protection 2000
Heart cam roll. L. L. Kingsford 574
Hygienic lighting 1822
Kezar Falls mill kept modern by constant improvement. F. A. Westbrook 2162
Layout, efficient, insures smooth flow of goods through Spartan Mills' cloth room 572
Master Mechanics consider steam and electrical problems 932
Metal spraying 1998
Motor, ball bearing. F. A. Westbrook. 581
Napping-room air—Pepperell's recirculation system. F. A. Westbrook 1821
New products and techniques discussed at A.S.M.E. meeting 2186
Operating economies follow modernization of buildings and equipment. F. A. Westbrook 440
Picker straps from scrap. George Rice .. 73
Plugging leaks in silk dyeing and finishing plants. W. R. Clendinning 582
Portable cloth scray. H. H. Iler 1265
Power and maintenance costs reduced by improvemet in 1932 421
Removing twister cylinders. L. L. Kingsford 218
Safety device for mangle and calender rolls. F. A. Wright 424
Unit heaters in textile mills. C. L. Hubbard 590
Unit heaters—installation and operation for efficiency. C. L. Hubbard 1630
Water treatment problem at Princeton Rayon Co. Schinman & Applebaum ..1096
Wood preservation 1268
Woolen-card rub aprons. L. A. Crosland 580

Exhibitions

Century of Progress exhibition and meeting of Textile Chemists 1833
Knitting Arts Exhibition—Textile World guide 727
Knitting Arts Exhibition and convention of National Assn. of Hosiery Mfgrs... 941
Knitwear Industrial Exposition 570
Outerwear industrial show 207

F

Farm allotment plan (ed) 205
Farm bill. Paul Wooton 725
Farm bill becomes a law. Paul Wooton .. 903
Farm relief 724
Farm relief plan. Paul Wooton 78
Farm relief plan arouses opposition from manufacturers 40: (ed) 41
Fatty alcohol sulphates 933

Finishing

Binding cloth finishing (Q) 242
Blankets, finishing (Q) 938
Bronze coating (Q) 596
Cloth scray, portable. H. H. Iler 1265
Cotton lawn finishing (Q) 597
Cotton warp mercerizing — omits preliminary boil-out 2176
Crabbing and scouring lightweight Venetians. G. K. Atkinson 1267
Crease resistant fabrics 384
Degumming agents 67
Degumming silk hosiery. W. W. Bray ...1816
Detergents and fiber lubrication discussed at A.A.T.C.C. meeting 1835
Dull luster in rayon hosiery. Carl Epps. 1602
Face-to-face starching. M. W. Alling .. 232
Fulling researches. J. B. Speakman ..1629
Gimp fabric finishing (Q) 938
Glove silk finishing. T. P. Sheridan ..1999
Lacquer finish on rayon fabrics. R. W. Merrall 743
Men's high grade novelty suitings. G. L. Atkinson 1994
Mineral oil products 1272
Plugging leaks in silk dyeing and finishing plants. W. R. Clendinning 582
Rayon processing, improved finishes in. .1600
Recovering waste heat saves money at finishing plant. W. R. Clendinning. .2174
Reduction in conversion costs by installing new machinery. W. W. Chase 430
Remnants reduced by piece slip in finishing plant. H. P. Nash, Jr. 1993
Silk dyeing and finishing plants, economies in. W. K. Clendinning 930
Sizing rayon warps. D. A. Gryder 1598
Speeding production in finishing worsteds. G. L. Atkinson 1095
Starches and dextrins for finishing, sizing and printing 229
Temporary textile finishing code 1418
Textile Institute conference reports progress in finishing 1440
Water marks—causes, prevention, cure. G. L. Atkinson 237
Fire protection 2000

H

Hosiery

Anti-run circular hosiery 733
Athletic hosiery yarns (Q) 1112
Box stitch in hose (Q) 1112
Circular hosiery—minimizing stitch cutting. G. W. Sheeley 71
Code approved 1616
Crepy effect in silk hose (Q) 1110
Defect in high splicing (Q) 2015
Degumming silk hosiery. W. W. Bray. .1816
Distorted stitches (Q) 1843
Dyeing defects avoided. G. H. Clifton. 1102
Full-fashioned defects. A. E. Parker .. 924
Full-fashioned defect recorded by camera. H. C. Roberts 1628
Full-fashioned defects—fly-outs, needle breakage. A. E. Parker 1806
Full-fashioned machines, falling bar adjustment. W. A. Simond 586
Full-fashioned selvages. M. C. Miller. 1982
Full-fashioned settings for perfect narrowing. M. C. Miller 70
Grading methods eliminate guesswork in raw silk and hosiery. W. P. Seem. .2172
Green discoloration on hosiery (Q) 1111
Half hose welts uneven (Q) 1111
Half hose and effect of twist in yarn. .1997
Hanes Hosiery Mills modernizes for profits 438
Knitting Arts Exhibition and convention of National Assn. of Hosiery Mfgrs... 941
Labor agreement in full-fashioned field faces test 739
Narrowing difficulties. M. C. Miller .. 730
Narrowing layout (Q) 2015
Needle breakage (Q) 2014
New products of 1932 418
Non-run hosiery 42
Peroxide bleach on cotton and cotton rayon hosiery. W. H. Hand 740
Photographs furnish clue to hosiery defects. H. C. Roberts 571
Pin stitches and two tone (Q) 1634
Plant, requirements for small knitting (Q) 596
Plating wrap hose, Southwick Hall 1434
Pulled threads (Q) 597
Rayon hosiery aided by dull luster. Carl Epps 1602
Rayon and mercerized cotton socks tendered 427
Real Silk Hosiery Mills production control. F. P. Delks 1092
Red spots on hosiery (Q) 1276
Re-seams for hosiery (Q) 1446
Shade variation in silk hosiery (Q) 77
Silk conditioning: Belmont borrows machine from shoe trade 1270
Sleazy knitting in welt (Q) 1277
Sleazy and creased 426
Small half-hose mill. C. N. Morris (Q) .1635
Specification and analysis sheet for hosiery comparison. Earl Epps 1256
Spots in hose (Q) 596
Stain on silk hosiery (Q) 1842
Stitches distorted in hosiery (Q) 2206
Storing hosiery in the gray 424
Streaks in hosiery (Q) 1446
Temporary hosiery code 1417
Textile projector shows knitted and woven defects. W. P. Seem 234
Welts uneven in half hose 427

I

Inspecting fabrics for shading and other defects 1993

J

Johnson, General—letter from D. G. Woolf. 1974

K

Kinks for Overseers (a dept.) 424

Knit Goods

Alternating plain and swiss rib (Q) 597
Cellophane knitting. J. H. Lepperhoff. .1084
Children's knitwear 732
Cost finding system at Minneapolis Knitting Works. V. J. Gregory 60
Cut presser figures—procedure for spring needle design. J. F. Cahill 214
Elastic warps, tension in (Q) 757
English firm establishes American branch account of tariff 592
Falling bar adjustment on full-fashioned machines. W. A. Simond 586
Fleeced knit goods (Q) 1843
Full-fashioned defects. A. E. Parker. .1806
Full-fashioned selvages. M. C. Miller. .1982
Fulling rayon worsted knit goods. W. E. Herrick 1254

Fulling sweater cloth (Q) 243
Jantzen Mills increases individual efficiency. L. H. Delano 1818
Kniting Arts Exhibition 941
Knitting Arts Exhibition—Textile World guide 727
Knitting feeds. J. F. Cahill..... 735
Knitwear Industrial Exposition 570
Lastex and metal in new French novelties. Marie Stark 1976
Manufacture of striped knitted fabric (Q) 939
Narrowing difficulties in full-fashioned work. M. C. Miller 730
New products of 1932 418
Oil stain on knitted garment (Q).....1112
Outerwear knitters hold industrial show and convention 207
Paris openings. M. H. Stark 763
Plant, requirements for small knitting (Q) 596
Processing knitted acetate fabrics. E. F. Cleveland 734
Reduction in conversion costs by installing new machinery. W. W. Chase.. 430
Shaded condition (Q) 1277
Small half hose mill. C. N. Morris (Q).1635
Specifying presser cuts—tips for knitting designer. J. F. Cahill 2178
Specks in knitted fabrics (Q) 939
Spot on knit goods (Q) 2207
Streaks in knitted boucle (Q).....1447
Streaks in knitted zephyr (Q).....1277
Textile projector shows knitted and woven defects. W. P. Seem 234
Thread costs of knitted undergarments. S. M. Peterson 1254
Underwear knitters reorganize under new name 217
Warmth without weight. William Davis.1625
Well scoured fabrics aid knit goods dyer. E. F. Cleveland 57

L

Labor

Analysis effects economies in winding silk and rayon. Otto Bitzenhofer 220
Black bill surprise 725
Code may solve mill village problem.... 1428
Codes deal new hands to textile workers.1426
Codes, effect of, cannot yet be gauged accurately 1618
Cotton mills move for 40-hour week.... 906
Community activities expanded at Avondale Mills 588
Efficiency increased by reduction of fatigue in throwing. D. G. Thompson.1443
Hygienic lighting 1822
Jantzen Mills increases individual efficiency. L. H. Delano 1818
Johnson & Johnson ask four six-hour shifts 1802
Labor agreement in full-fashioned hosiery field faces test 739
Mill village cost in the South 1804
Organized labor and the NRA (ed).....1794
Penalizing wool weaver (Q) 1635
Radio entertainment improves workers' efficiency in hosiery plant 1103
Shorter hours (ed) 1794
60-hour mill—best plant for division of work 2188
Social trends—book review 72
Tests of rayon aid weaver and knitter. A. E. Sunderland 1986
Wage chiselers. G. A. Beals 68
Wage readjustments 1273
Wages and hours 388
What textile men think about regulation of industry 904
Work week laws not imposible under present abnormal conditions. Paul Wooton 246

Lastex

Lastex and metal in new French novelties. Marie Stark 1976
New products of 1932 418
Textiles of rubber appear in new form and offer new possibilities 50
Linen, rust stains in (Q) 243
Linen at Paris openings. M. H. Stark.... 763

Loom

Brake adjustment on looms. H. E. Wenrich 1082
Development of early American power loom. J. T. Lincoln 46
Filling please: weaver's signal to quill boy. O. W. Bitzenhofer 1093
Reproducing colonial coverlets. W. E. Shinn 212
Rocker shaft trouble on silk and rayon looms. H. E. Wenrich 69
Test analysis for loom operation. Richard White 1622
Tests in cotton weaving. Richard White.1992
Upkeep reduced by correct settings. Milton Meek 1090
Lubrication—Silk warps, lubricating (Q) 938

M

Machinery

Machine makers set up coordinating agency 1280
Manufacturers and purchasing machinery (ed) 1793
New products and techniques discussed at A.S.M.E. meeting 2186
Scrapping obsolete machinery. W. W. Chase 428

Maintenance

Belts, leather, reconditioning prevents ruin. J. N. Smith 741
Carding and spinning maintenance considered by Carolinas Division, S.T.A..1996
Decaying roofs—modernized to eliminate dry rot. R. H. Guest 226
Filing small articles 424
Fire and NRA—shorter hours require better protection 2000
Heart cam rolls. L. L. Kingsford 574
Loom upkeep reduced by correct settings. Milton Meek 1090
Master Mechanics consider steam and electrical problems 932
Plugging leaks in silk dyeing and finishing plants. W. R. Clendinning 582
Removing twister cylinders. L. L. Kingsford 218
Rusty steaming bobbins 425
Wood preservation 1268

Management

Budgeting by overseer for variable woolen mill production. R. I. Martin. 922
Budgeting production. E. N. Hood..... 386
Code may solve mill village problem....1428
Community activities expanded at Avondale Mills 588
Concentration on specialty keeps 8-loom mill busy 2177
Folding and packing expedited by good layout. H. P. Nash, Jr. 935
Graphic records for production. Eugene Szepesi 1438
Jantzen Mills increases individual efficiency. L. H. Delano 1818
Kezar Falls mill kept modern by constant improvement. F. A. Westbrook.....2162
Layout, efficient, insures smooth flow of goods through Spartan Mills. cloth room 572
Mill village cost in the South 1804
New products pay dividends on textile research 384
Penalizing wool weaver (Q) 1635
Plant analysis. W. A. Lang..... 566
Plant, requirements for small knitting (Q) 596
Problems accentuated by Recovery Act.1422
Radio entertainment improves worker's efficiency in hosiery plant 1103

Wool—1932 in the wool industry..... 383

Wool Manufacturing

Angora rabit wool, little progress in. W. H. Butler 2171
Carbonizing process (A.A.T.C.C. meeting) 1833
Code provisions proposed 2166
Double cloths using double warp and double filling. R. A. C. Scott 1808
Dyeing a mohair rayon fabric (Q).....1842
Fleece knit goods (Q) 1843
Fringe for robes (Q) 1276
Fulling reaches. J. B. Speakman.....1629
Heat-reflecting properties of dyed wool shown by infra-red photographs.....2180
Herringbone, cut presser (Q) 1447
Lastex and metal in new French novelties. Marie Stark 1976
Matted fleeces opened by new operation. Webster Norris 238
Merinos, new method for, on cotton system. H. W. Swan 1624
Mineral oil products 1272
Mohair frieze (Q) 2206
New technique and machinery improvements discussed by A.S.M.E.....2186
Overseers' Association celebrates its 50th anniversary 2182
Rug pattern inspiration in weave structure 1432
Shaded condition in knit goods (Q) ...1277
Silvertone effect on skein dyed yarn (Q) 76
60-hour mill—best plan for division of work 2188
Stains on wool fabric (Q) 1843
Velvet carpeting (Q) 1447
Wage chiselers. G. A. Beals 68
Warmth-weight study of knit goods. William Davis 1625
Weave room to blame for imperfections. George Rice 2085
Wool code hearings 1419
Wool textile industry code 1414

Woolen Manufacturing

Backed cloths, imitation; wadding threads. R. A. C. Scott 918
Backwashing crossbreds. F. B. Hudson..1087
Blamire feed. T. Oliver (Q) 77
Blankets, finishing (Q) 939
Budgeting by overseer for variable woolen mill production. R. I. Martin 922
Carbonized fabric, cloudiness in (Q)....1111
Carbonizing with makeshift equipment. W. E. Herrick 425
Care of Palmer blankets (Q) 1634
Charlottsville Woolen Mills reduces costs by modernization 434
Clocks, woolen-mule (Q) 1634
Cotton wool blanket calculations (Q).. 597
Design and finish 425
Equipment modernized in woolen industry. E. D. Fowle 410
Irregular woolen yarn—causes arising from carding. L. A. Crosland 1815
Kezar Falls mill kept modern by constant improvement. F. A. Westbrook 2162
Level dyeing on wool goods (Q)..... 756
Mule, trouble at the. T. Lawson..... 750
New woolen weaves. G. R. Stevens 753
Novelty yarn fabrics. Ralph Downs....1088
Oil content of woolen yarn (Q) 2207
Oiling wool mixes (Q) 1110
Paris openings. M. H. Stark 763
Penalizing wool weaver (Q) 1635
Reduction in conversion costs by installing new machinery. W. W. Chase.. 429
Ring spinning frame for woolen manufacture 48
Rub aprons, woolen card. L. A. Crosland 580
Slugs, making wool 426
Tape condensers. H. T. Godfrey.....1086
Twill in woolen unsatisfactory (Q)..... 242
Waste ends on woolen card (Q)..... 243
Wool blend on cotton system (Q)..... 939

Worsted Manufacturing

Coatings and suitings—design suggestions. G. R. Stevens 1989
Crabbing and scouring Venetians. G. L. Atkinson 1267
Doffing systematically and checking spinning quality. Alfred Heaton.....1995
Double versus single-end roving. Alfred Heaton 1623
Equipment modernized in worsted industry. E. D. Fowle 410
Finishing worsteds, speeding production in. G. L. Atkinson 1095
French comb—delivery adjustments for various wools. F. B. Hudson 751
Fulling rayon worsted knit goods. W. E. Herrick 1254
Fulling sweater cloth (Q) 243
Matted fleeces opened by new operation. Webster Norris 238
Neps in noils and their removal. L. A. Crosland 1437
Novelty yarn fabrics. Ralph Downs....1088
Overseers' Association celebrates its 50th anniversary 2182
Processing men's high grade novelty suitings. G. L. Atkinson 1994
Reduction in conversion costs by installing new machinery. W. W. Chase.... 429
Reeling the worsted-production standards and piece rates. M. C. Bishop..... 64
Slubs in worsted roving. Arthur Winslow 1255
Streaks in knitted zephyr (Q) 1277
Twist defects and their correction. George Hendricks 916
Wool tops, condition of 425
Yard trends in production and equipment—Wharton School of Finance and Commerce 1805

Y

Yarn, cotton—Cotton strength and yarn count—new correction formula 2181
Nep and Himalaya on cotton sytem. Arthur Ouimet 1429
Yarn, rayon—Lubricating rayon yarn (Q) 242
Throwsters' problems in handling pigmented yarns. E. T. Rumpp.....1262
Yarn, woolen—Irregular woolen yarn—causes arising from carding. L. A. Crosland 1815
Yarn, worsted—Wharton School of Finance and Commerce reports trends 1805

(Q) Questions and answers

Authors' Index

A

Alexander, Robert S.: Discussing national problems 1274
Evening schools for textile workers.... 755
Allen Philip: Rayon in cotton mills..1597
Alling, Myron W.: Face-to-face starching.. 232
Applebaum, S. B., and E. P. Schinman: Water treatment problem at Princeton Rayon Co. 1096
Atkinson, G. L.: Crabbing and scouring lightweight Venetians 1267
Processing men's high grade novelty suitings 1994
Speeding production in finishing worsted. 1095
Water marks—causes, prevention, cure ..237
Austin, James A.: Accurate sales costs as determining factor in merchandising policy 393
Ayers, Thomas: What to do about a second shift 2012

B

Barber, Ernest: Cleaning silk (Q) 2015
Beals, Granville A.: Wage chiselers—are they to dominate our industry? 68
Becknell, H. B.: Machinery salesmen in the mill 1444
Responsibility for lubrication 937
Bendz, W. I.: Variable speed drive for worsted spinning 598
Bennett, Fred: Discussing national problems 1274
Machinery salesmen in the mill 1445
Bishop, Morris C.: Lower costs for purchased power 1100
Worsted reeling — production standards and piece rates 64
Bitzenhofer, Otto W.: Analyzing silk warping—means to increase efficiency. 1810
Departmental analysis effects economies in winding silk and rayon 220
Filling pease! weaver's signal to quill boy 1093
Weaving performance analyzed in silk and rayon mill 744
Black, John: New style concept would check piracy and yield return 396
Overlapping code jurisdiction in silk and rayon 1975
Blackman, B. D.: Bedford cord and its counterparts, cote-de-cheval and plisse 230
Domino crepe 920
Failles 1436
Matelasse 603
Bokum, R. C.: Encouraging thrift among workers 241
Brandt, Carl D.: Texas cotton 1258
Bray, W. W.: New concepts on use of soap in degumming silk hosiery 1816
Butler, William H.: Little progress despite efforts with angora rabbit wool 2171
Byrd, F. L.: Alowing time for relaxation. 1826
Back alley weaving 595
Encouraging thrift among workers 241

C

Cahill, J. Frederick: Cut presser figures —procedure for spring needle design 214
Fabric weight—quick! 1435
Knitting feeds—how they affect cut presser figures 735
Specifying presser cuts tips for knitting designer 2178
Chamberlin, Dale S.: Throwing silk and rayon—extracting and drying... 1984
Chase, Winn W.: Scrapping obsolete textile machinery will save $159,000,000 a year 428
Chittick, James. Rayon "triple sheers" must have flat appearance 1823
Clendinning, William R.: Engineering economies in silk dyeing and finishing plants 930
Finishing plant saves $20 a day at one machine by recovery of waste heat.. 2174
Plugging the leaks in silk dyeing and finishing plants 582
Cleveland, E. F.: New problems in processing knitted acetate fabrics..... 734
Well scoured fabrics lighten burden of knit goods dyer 57
Clifford, A. C.: Purification improves fibers for electric insulation 2001
Clifton, George H.: Avoiding defects in dyeing silk and rayon hosiery 1102
Cooper, A.: Handling mill supplies 1105
Responsibility for lubrication 937
Cottrell, Ray.: Cotton-rayon printing—modification of cotton methods 1824
Dischargeable dyestuffs—application to cotton rayons 1439
Print works methods for bleaching cotton rayon fabrics 1271
Crosland, L. A.: Irregular woolen yarn often traceable to unsatisfactory carding 1815
Neps in noils 1437
Woolen card rub aprons 580

D

Davis, William: Warmth without weight. 1625
Delano, Leonard H.: Individual efficiency increased at Jantzen Mills 1818
Delks, F. Philip: Real Silk Hosiery Mills accurate production control 1092
Douty, D. E.: New seriplane standards improve classification of raw silk..... 1627
Downs, Ralph: Novelty yarn fabrics in woolen and worsted 1088
Dunlap, E. S.: Fairest basis for wage increase 1623
Duxbury, Milton: Weaving leno with beads 746

E

Ellms, R. A.: Allowing time for relaxation 1826
Emerson, Carl L.: Discussing national problems 1274
Epps, Carl: Hosiery quality rewarded only when carefully analyzed 1256
Rayon in hosiery aided by dull luster..1602

F

Ferguson, Thos. D.: Qualifications of an efficiency engineer 2204
Fowle, Edwin D.: Woolen and worsted technical picture changes steadily.... 410

G

Galloway, Howard P.: Qualifications of an efficiency engineer 2204
Gibbons, Edwin J.: Ladder tape-narrow fabric of unique construction..... 58
Narrow fabrics—double cloths with two shuttles 584
Gilston, Stewart H.: Reduced operating costs mark progress in rayon throwing 1596
Godfrey, Harold T.: Tape condensers—how many aprons and ends? 1086
Gregg, G. E.: Encouraging thrift among workers 241
Gregory, V. J.: Cost finding system at Minneapolis Knitting Works 60
Gryder, D. A.: Wide choice of materials for sizing rayon warps 1598
Guest, R. H.: Decaying roofs—construction modernized to eliminate dry rot.... 226

H

Hall, Southwick: Plating wrap hose.....1434
Hand, W. H.: Peroxide bleach on cotton and cotton rayon hosiery..... 740
Harleston, C. F.: Modern style brocade—abstract effect 2183
Hart, Ralph: Saving in oil by use of salt in silk soaking 926
Hart, T. R.: Women's cotton suitings.... 747
Hauser, W. J. R.: Impregnation of textiles with latex 587
Heaton, Alfred: Composite worsted mill doffing systematically and checking spinning quality 1995
Composite worsted mill employing best methods of twenty spinning plants..1623
Hendricks, George: Worsted twist defects—their correction 916
Herman, Will: Encouraging thrift among workers 240
Handling mill supplies 1105
Machinery salesmen in the mill 1444
On an engineering survey 74
Responsibility for lubrication 936
Herrick, William E.: Carbonizing with makeshift equipment 425
Fulling rayon worsted knit goods..... 1254
Herstein, Karl M.: Microchemistry 1452
Practical tests for evaluation of wetting agents 1094
Hood, Ernest N.: Budgeting production effects material savings in costs.... 386
Hooper B.: Fairest basis for wage increase 1632
Hubbard, Charles L.: Unit heaters—installation and operation for efficiency. 1630
Unit heaters find increasing use in textile mills 590
Hudson, Arthur: Evening schools for textile workers 755
Transparent velvets (Q) 756
Hudson Frederick B.: Backwashing crossbreds 1087
French comb—delivery adjustments for various wools 751

I

Iler, H. H.: Portable cloth scray built at nominal cost 1265
Isley, J. V.: Filing small articles..... 424
Lifter for slasher counter 427
